Regarding: A Star Society for Performing & Fine Arts

Our firm has been providing accounting services for A Star Society for Performing & Fine Arts for five years. I have performed a compilation engagement and found no discrepancies of note.

Upon request, I looked at the society's expenses and calculated the percentage used to directly support dancers. Over the last five years, A Star Society for Performing & Fine Arts spent 95% of its funding directly on the children. It should also be noted that Boogaloo Academy Limited donates the studio space and all other office staff and resources free of charge to the society.

Based on the financial information and attendance records, A Star Society for Performing & Fine Arts has helped 2,800+ children a year learn and experience dance who otherwise would not have had the opportunity.

We wish A Star Society for Performing & Fine Arts many more years of success with the goal of bringing the joy and benefits of dance to those who cannot afford it.

Matthew Fearn CPA, CGA
